

Performance fiber that emits far infrared radiation through special minerals embedded in yarn.

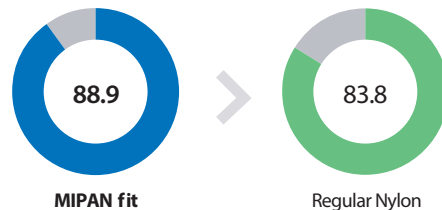

[Characteristics]

- Activates blood circulation
- Keeps the body temperature
- UV Protection
- Permanent effect of emitting far infrared ray

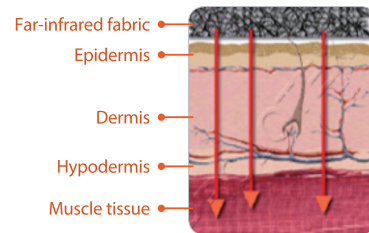

[Specifications]

ITEM	DENIER	FILA	LUSTER
FDY	40	34	FD
DTY	50	34	

[Far-infrared radiation(%)]

*Far infrared radiant is influential for human body only in case the emissivity is higher than 85 percent.
